Host | Korea Institute of Nuclear Nonproliferation and Control (KINAC)

Invitation

It is a great honor for us to invite you to the Nuclear Nonproliferation and Security Symposium 2021 which will be held from 26 to 27 May 2021.

Since the 1st International Nuclear Nonproliferation and Security Symposium held in 2005, KINAC has provided a forum for its global partners to share views and experience of important and trending issues of nuclear security and nonproliferation.

Last year marked the 50th anniversary of the Treaty on the Non-Proliferation of Nuclear Weapons (NPT)'s entry into force, which has provided the essential foundation for international efforts to curb the spread of nuclear weapons across the planet.

With the 10th Review Conference of the NPT ahead, this year's Symposium is intended not only to discuss successes and challenges of the treaty over the past five decades, but also to share insights to sustaining this treaty for 50 more years.

Program – Day 1

Day 1 Opening Session		
9:00~9:05	Opening Remark	Dr. Sok Chul Kim (President of KINAC, ROK)
